

## CTN Business Plan Update

- ▶ BoozAllenHamilton retained for business plan development
- ▶ Identify path to sustainability over 3 to 5 year window
- ▶ Prioritize applications and services to be offered over the network
- ▶ Key Recommendations:
  1. Provide a service bureau to assist sites with acquisition of broadband
  2. Provide access to specialty care services (mental health, dermatology, ophthalmology)
  3. Provide the cloud solution to host applications (EHR, scheduling, imaging, telepharmacy, etc) over a secure connection
  4. Create a knowledge center to aggregate training, CME offerings over the broadband network

## UC Davis/CTN eHealth Broadband Adoption Grant

- ▶ Demonstrate sustainable broadband adoption
  - \$9.1 million award from Department of Commerce/NTIA
  - \$4.7 million match
  - \$13.8 million total award
- ▶ Provides \$2.0 million in core operating funding for CTN staffing
- ▶ Provides for the establishment of 15 broadband enabled model communities:
  - Funding the strategic placement of eHealth equipment
  - Over 60 hours of eHealth online training content
  - Test beds for broadband enabled healthcare delivery

## **UC Davis & CTN Online eHealth Training Program**

- ▶ Curriculum is designed to support the transition to technology-enabled health and health care
- ▶ Collaboration between academia, community-based educators, instructional design experts and tribal representatives
- ▶ Funded by the US Department of Commerce Broadband Technology Opportunities Program, the California Healthcare Foundation and the UnitedHealthcare Foundation

## Online eHealth Course Curriculum

- ▶ California Telehealth Network Orientation (4 Lessons)
- ▶ Telehealth (24 Lessons)
- ▶ Consumer Health Informatics (6 Lessons)
- ▶ Clinical Health Informatics (6 Lessons)
- ▶ Electronic Health Records/Health Information Exchange (EHR/HIE) Adoption (12 Lessons)
- ▶ Broadband Adoption (4 Lessons)
- ▶ Change Management (8 Lessons)
- ▶ Register online at: <http://ehealthtraining.extensiondlc.net/>
